# Cosignia Joins Gallagher Bassett

*Local Expertise, Global Strength*

Gallagher Bassett (GB) are pleased to announce the acquisition of a book of business formerly carried by Cosignia.

This is an exciting opportunity for both organisations and will allow GB to utilise its global expertise in personal injury claims and case management to further enhance Cosignia's current service offerings, leveraging Cosignia's success in the Disability, Life and Health sector to further grow GB's services portfolio in both Australia and New Zealand.

This acquisition will have no immediate impact on Cosignia's operations or clients, with the same staff and great customer service that has been enjoyed to date remaining unchanged. In the near future clients will see the additional benefits of Cosignia being part of a global organisation that boasts decades of experience in proactively managing personal injury claims.

## Gallagher Bassett

GB has been operating in NZ for more than 10 years.

GB are a global leader in third party claims administration, with particular expertise in proactively managing personal injury claims.

GB provides a full range of services, including workers' compensation, general insurance and consultancy.

GB currently employ 900 staff across NZ and AU, existing as part of Gallagher Bassett Services Inc. that employs over 6000 staff worldwide.

## Benefits of Acquisition

- GB is a global Third Party Claims Administrator, with decades of experience in proactively managing claims, particularly personal injury claims.
- GB will combine its global claims management expertise with Cosignia market leadership in the risk & health sector to provide an enhanced service offering to clients.
- Both parties are excited about this acquisition which will continue to be closely managed in NZ by existing Cosignia staff to ensure a smooth transition for all clients.
- This acquisition will create future business and employment opportunities in both NZ & AU.

## Cosignia

Cosignia provide third party administration for financial services and insurance products, particularly risk and health.

Cosignia is renowned for the experience and expertise of their people and the market-leading functionality and service that they are able to provide all clients including insurers, employers, employees and advisers.

Cosignia currently provides Third Party Administration services to in excess of 80,000 people across NZ.
