About Injury Edge

Injury Edge is GB's online, cloud based Injury Management Tool which has been developed to help you to effectively and efficiently capture, manage, track and report on your workplace injuries and compensation claims.

Injury Edge will set you up for success by providing you with more control and visibility over your claims portfolio, allowing you to target claims hotspots and reduce your liability.

Who's using Injury Edge?

Companies with between 5-30 claims per year and who are currently using either a paper based or excel system to manage their claims will receive the most benefit from Injury Edge.

Clients already using this tool have seen an increase in productivity allowing them to focus on higher-value activities to drive premium improvements.

Why choose Injury Edge?

- ✓ Keep claims up to date in one secure location
- ✓ Stay on top of work and non-work related injuries and claims, and promptly recall any claim
- ✓ Eliminate manual uploading of documents
- ✓ Get automatic reminders for all key actions
- ✓ Identify performance improvements with in-depth analytics
- ✓ Automatically upload historical data
- ✓ 24/7 access to the system anywhere, anytime

Discounted Per Annum Cost

As a GB client you can access the system at a heavily discounted rate. We'll even waive the set up fee.
