

# Introducing Gallagher Bassett

Gallagher Bassett is not an insurance company, we provide claims management services and return to work services for Northern Territory Government Employees, and volunteers on behalf of the Northern Territory Government, who is self-insured.

We know being injured can make things stressful, we work hard to ensure a **quick, safe and sustainable recovery**.

The NT team are based in Darwin, with satellite offices established in Alice Springs and Katherine, to support the delivery of services to the regional and rural areas throughout the territory
